

# ***Propane Cylinder Cabinet***

## ***Short Description:***

The Propane Cylinder Cabinet allows for propane to be delivered to remote locations.

## ***Functional Description:***

The PCC provides room for up to eight propane cylinders. The bank of cylinders is plumbed together for up to 240# of propane. The resulting system is an easy-to-use alternative for remote generator installations.

## ***Applications:***

The unit was designed to accompany propane back-up generators in locations where propane delivery is prohibitive. The cylinders can be easily lifted into a hy-rail vehicle and filled locally.

## ***Features:***

- Up to 240# of capacity (8ea – 30#)
- Available with 20#, 30#, or 40# cylinders (only 4ea, 40# cylinders)
- Valve on each hose allows for hot-swap
- Standard OPD valve can be filled locally
- Automatic change-over regulator between cylinder shelves
- Locking "T" Handle w/ padlock hasp
- 16-gauge powder-coated steel
- Angled roof for rain deflection
- Can be anchored to optional Polymer Concrete Slab
- Made in America

## ***Specifications:***

Dimensions: ..... 24" x 24" x 72"  
..... 24" x 24" x 54" (PCC40)  
Material: ..... 16-gauge Steel,  
..... 1-1/2" Angle Steel  
..... 1/2" Expanded Steel  
Hinges: ..... Welded Tubular  
Finish: ..... White Powder Coat  
Manifolds: ..... Solid Machined Brass  
Hoses: ..... Braided Stainless Steel  
Connections: .....  
Input: ..... Standard POL (cylinder)  
Output: ..... 1/2" NPT Female  
Cylinder Weight: ..... 70 lbs. maximum (40#)

## ***Available Model Numbers:***

ARMS-PCC20: 6-foot cabinet w/ 160# capacity  
ARMS-PCC30: 6-foot cabinet w/ 240# capacity  
ARMS-PCC40: 4' 6" cabinet with 160# capacity

Add "-FS" to Model Number for Polymer Concrete Slab
